All of our wines are supplied by The House of Townend, who are an independent, family run Wine Merchant established in 1906. For five generations they have built direct relationships with some of the finest wine producers in the world. Their buying emphasis lies firmly with the smaller, quality led, and often family owned, wine estates and domains who possess like-minded philosophies.

Sauvignon Gris, Peewit
Côtes de Gascogne, France

A new white wine - the wonderfully fresh and zippy Peewit! Each winter, the Peewit (Northern Lapwing) migrates from the UK to the more temperate and stunningly beautiful region of Gascony in southwest France. It is here that the grapes for this aromatic and fruity Sauvignon Gris are grown. Made by Philippe Lebrun, one of the Languedoc's crop of dynamic, flexible and forward thinking winemakers.

Vinho Verde 'Tongue Twister', Manoel Poças
Minho, Portugal

Called 'Tongue Twister' after the names of some of the indigenous Portuguese grape varieties. Made by the family-owned Poças estate, established in 1918. Now with three quintas in the best winemaking areas of the Douro Demarcated Region, Poças ensures its total control over the quality of its wines and the family is more involved than ever before.

Malbec, Gouguenheim
Mendoza, Argentina

Born in Argentina to French parents, Patricio Gouguenheim's love for wine started at the age of 7 when he was given a little bit of wine (mixed with sparkling water!) with every meal. No doubt this was a catalyst for him entering the world of wine later on in life. It was in 2002, when Argentina went into a big economic crash and GDP collapsed that he decided to enter the wine market (as everyone else was leaving...). He found a very old winery located in the Uco Valley, with a lot of small tanks ideal for the production of high quality wines, and that was the start of his venture in this wonderful, crazy business!

Primitivo "Appassimento"
Carlomagno – Puglia, Italy

Paolo Leo founded his Salento winery in 1989. It is one of the leading Puglian wineries, renowned for its production of native varietals such as Primitivo and Negroamaro, and remains in the hands of the founding family. The grapes for this wine are left to dry for about 12 days, losing about 25-30% of their weight, allowing the concentration of flavours and the natural sweetness of the grapes. The name 'Appassimento' on the label refers to this particular technique.

Marselan, Le Professeur
Languedoc, France

The Marselan grape was created in 1961 by Paul Truel, a leading 'Ampleographer' (Ampleography is the science of identifying, naming and classifying vines and grape varieties). Nowadays this is all done through DNA, but in Truel's time, it was a highly skilled and scientific process. He was described as a man of rigor, an insatiable researcher. The idea of him working away in the lab, combined with the test tubes, flasks and pipettes often seen at wineries is the inspiration behind Le Professeur, and the label is a tribute to Paul Truel.
